

MEDIA RELEASE September 2018

FUNFIELDS WAVES GOODBYE TO THE WINTER WITH THE LAUNCH OF VICTORIA'S VERY FIRST HEATED OUTDOOR WAVE POOL

With summer just around the corner, Funfields Theme Park is riding the wave into the hotter months and is thrilled to announce the launch of Victoria's very first heated outdoor wave pool.

Opening to the public this December, the multi-million dollar development has been under construction since February and will include pool-side cabanas available for hire to make those days out with the family even more enjoyable.

Over 600 cubic metres of concrete will be used to build the pool which will have a volume of over **1.5 million litres of heated water pumping out waves up to one metre high**, and for those less-inclined to enjoy the waves, can be used as a pool to cool off between wave sessions.

The opening of the wave pool comes only one year after the launch of their record breaking waterslide the Gravity Wave, making Funfields home to three of five record-breaking slides in Australia, according to industry leaders ProSlide.

General Manager of Operations Sam Holdich is thrilled to soon see months of hard work come to life for Funfields guests.

"Continual development of the park is so important to us here at Funfields. We want to offer our guests a brand new experience every season that they can't get anywhere else in Victoria so a wave pool was the perfect fit for us."

Funfields neighbour Rebecca Keep is particularly excited, "we live right next door to Funfields and we absolutely love it! The Wave Pool is just what we needed in this area and we'll definitely be investing in a Family Season Pass this season to enjoy over and over again"

Funfields will be opening this Sunday with the wave pool to be opened in December. For more information on opening hours please visit the website on www.funfields.com.au
